Acadience Reading benchmark assessments are free. Acadience Learning, who publishes Acadience Reading, offers a Data Management tool that is extremely helpful for tracking student progress and is \$1 per student per year. For K-2 that is about \$100. *This price will be changing to \$1.50 per student for the 2020-2021 school year (Live Oak will receive the \$1/student price for one more year).*

Acadience Reading is a quick 3-5 minute screener that can be given to all students K-6 eventually to monitor progress. If students meet benchmarks, no other screening is needed. If students do not meet benchmarks, we can do further assessments with DRAs which we have and can do with no further cost. *The PAST and the Words Their Way Spelling Inventories are also very helpful with older students.* But Acadience also makes a diagnostic test that complements the screeners we use. This is useful when helping to decide whether we should recommend students for formal testing. The test (Acadience Reading Diagnostic PA + Word Reading) is \$100 + shipping/tax. Here is a 1 page info sheet on this test: [https://acadiencelarning.org/Diagnostic\\_PA\\_WRD\\_Fact\\_Sheet.pdf](https://acadiencelarning.org/Diagnostic_PA_WRD_Fact_Sheet.pdf)

In addition, Acadience just released a brand new higher-level diagnostic test to test comprehension, fluency and oral language and it goes through grade 6. This kind of test would be helpful with our older elementary students. We really like the idea of streamlining our assessments and diagnostic tests so they are all made by the same company. The higher level test, Acadience Reading Diagnostic Comprehension, Fluency and Oral Language test, is also \$100 + shipping/tax. Here is the fact sheet: [https://acadiencelarning.org/Diagnostic\\_CFOL\\_Fact\\_Sheet.pdf](https://acadiencelarning.org/Diagnostic_CFOL_Fact_Sheet.pdf)

Both tests have an online 4.5 hour training for \$129 per person.
